ABOUT / Skills

A skilled software engineer specializing in JavaScript/TypeScript technology stacks. I have expertise in the following technologies:

Frontend - HTML, CSS, React.js, Next.js, Redux Toolkit, React Query, React Testing Library, Jest.

Backend - Node.js, Express.js, MongoDB, PostgreSQL, Mongoose ODM, Prisma ORM, Drizzle ORM.

DevOps - Docker, Github Actions, Vercel, AWS EC2.

Version Control System - Git, Github.

Others - Linux, Neovim, VS Code, Turborepo.

With these tools, I craft elegant and robust applications that deliver seamless user experiences. Passionate about innovation and solving complex problems, I'm committed to staying up-to-date with the latest technologies and pushing the boundaries of what's possible.

Work Experience

Software Engineer
MTechZilla

06/2022 - 03/2024

Roles / Responsibilities

- Convert Figma prototypes into functional and visually appealing user interfaces.
- Optimize the performance of the website to enhance user experience and reduce page load times.
- Create and integrate APIs, ensuring smooth communication between different parts of the application.
- Contribute to project planning and coordination, ensuring timely delivery of high-quality software.
